

BOULDER 2008 PHONO PREAMPLIFIER

THE NEW ANALOG PLAYBACK REFERENCE

Three Balanced Inputs, Three Equalizations, Three Low-cut Filters, and Connections for your Cartridge Demagnetizer

Cartridge Personality Card for each input

'No phono section that I've ever heard comes anywhere near to matching the sonic performance of the Boulder 2008. ...the 2008 belongs in Class A+ of "Recommended Components": a class by itself.'

—Michael Fremer, Stereophile, July 2002.

Boulder also manufactures the 1000 and 2000 Series Preamplifiers, D/A Converters, and Power Amplifiers. Call us to learn how Boulder can make a difference in your system.
